

For a clean environment!

In order to expand our international sales network, we are looking for

Commercial Agents and/ or Cooperation Partners

The *F.O.S. Group*, having more than 20 years of experience as a system supplier in the field of dedusting, offers a broad range of products with unique cost saving possibilities for our customers:

- **Production of high-quality filter elements „Made in Germany“ for the entire area of filtration**
- **Patented cleaning systems for filter tubes and cartridges in built-in condition**
- **These systems are environment- friendly and cost- efficient alternatives to replacing the filter elements (cost savings up to 80 %)**
- **Extensive national and international references**

If you have contacts to power plants, cement-, steel- or chemical industries etc., we would like to talk to you.

We are offering first-class potential earnings and individual assistance without any own investments.

We are looking forward to cooperate with you.
